SUMMARY

Highly motivated and creative programmer who works well in teams. Fast learner who has picked up a variety of languages to complete complex projects. Has a slight focus on networking technologies. Bachelor's in computer science from the University of Riverside.

EDUCATION

University of Riverside, CA— *Bachelor of Computer Science*

September 2019 – March 2022, GPA: 3.53

Relevant upper-division coursework:

- Introduction to Software Engineering
- Data Structures and Algorithms
- Database Management Systems
- Advanced Programming in C++
- Computer Networks

SKILLS

C++, Java, Python, HTML, CSS, SQL, JavaScript

PROJECTS

Van Emde Boas Tree — *School Project*

Project to implement a binary tree is faster than the standard library given specific conditions. Used C++ to implement and test the complex algorithm with minimal oversight.
